

MANUAL FUSION MACHINE STAND

Productivity Aid for 2LC, Pit Bull® 14 and Pit Bull® 26 Fusion Machines

McElroy
Manual Fusion
Machine Stand

OVERVIEW

The McElroy Manual Fusion Machine Stand makes working with the Pit Bull® 14, 2LC and Pit Bull® 26 much easier. The stand expands to a comfortable operator level, reducing fatigue on the operator. The height of the stand corresponds to McElroy pipe stands, the PolyPorter™ and PolyHorse™ for easy pipe loading into a fusion machine.

When use of the Manual Fusion Stand is finished, it folds for easy storage and has wheels for transporting your machine to and from the jobsite.

FEATURES

- Collapsible for easy transport
- Works with a variety of fusion machines
- Can be paired with McElroy productivity tools, including pipe stands, the PolyPorter™ and PolyHorse™
- More comfortable working height
- Locks in both folded and unfolded positions
